

Step 1

Click on Tour Guide Hier

Step 2

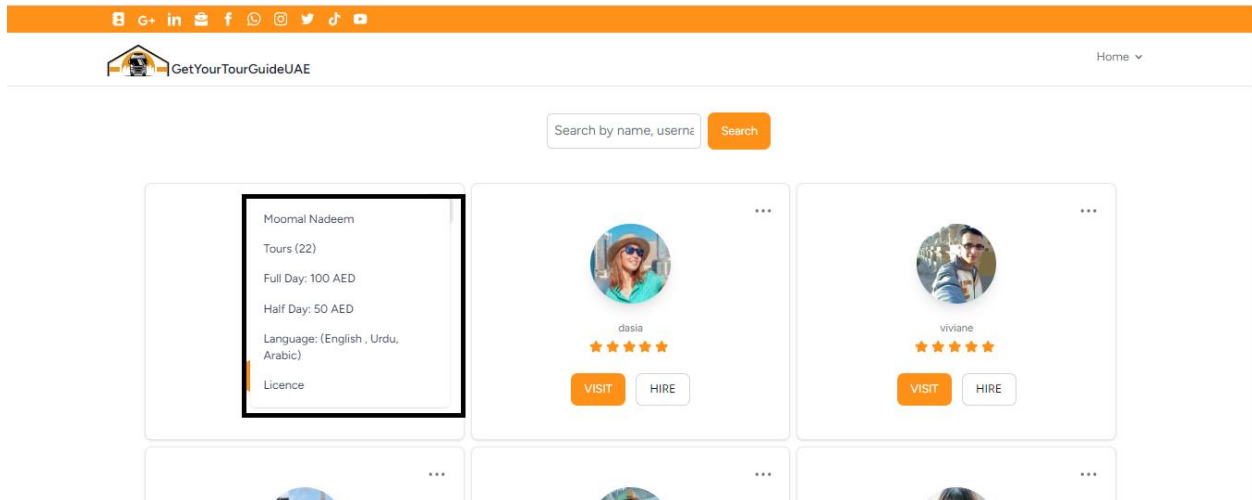

Search for a Tour Guide according to your requirements by username and language.

HIER GUIDE

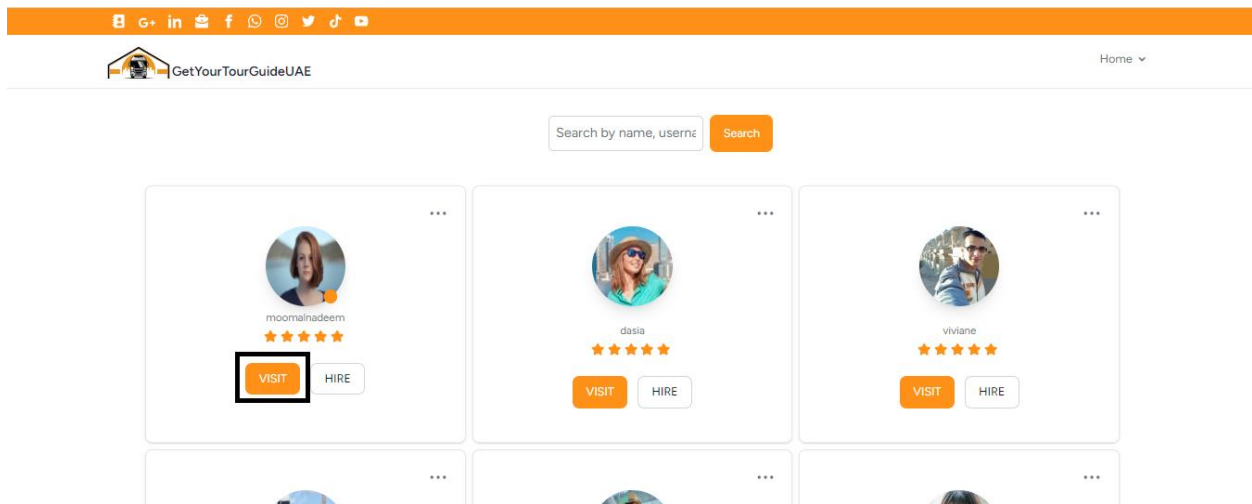

Step 3

You can also check the name of the Tour Guide, the tours he/she has completed, his/her full-day and half-day charges, the languages he/she speaks, as well as the languages you will speak and understand. Additionally, you can check the rating and license of the tour guide for your satisfaction.

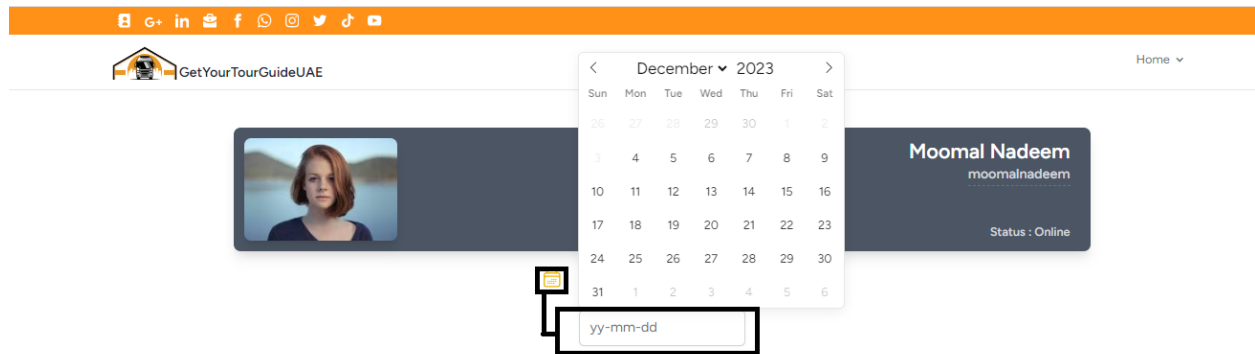

Step 4

If you want to know more about a tour guide, visit the tour guide's profile to check the videos, feedback, and pictures that showcase the tour guide's work. An important consideration is to check the calendar to know if the tour guide has booked dates. If the date you want to hire the tour guide is already booked, you cannot book the tour guide for that date. The solution is to check for another available tour guide for that date. If the date is available, you can then book the tour guide.
